

Zappone Manufacturing

Bay Window Kit Sizing Guide

The Zappone Copper Accent Kit is designed to fit nearly all new U.S. and Canadian manufactured bay windows. Custom kits for larger applications and pre-existing bay window roofs are also available.

The contents of the kit is sufficient to roof bay windows with the following limitations

ZR-104 dimensions are 11x9x11x9x5.

Total opening is up to 8 feet.

Total of all eave (A) measurements is up to 168 inches.

Total of all roof-to-wall (B) measurements is up to 168 inches.

Hip (C) measurement (each) is up to 42 inches.

Custom Sizes:

Simply provide us with the measurements of Eave (A), Roof-to-Wall (B) and Hip (C); and we will package a custom kit to fit your needs.
